

## **MURAL INFORMATION AND PRICING 2023**

### *Steps to a finished mural*

The initial consultation is free and usually combined with a site visit. We will discuss the client's design ideas, colors, details, and goals for the finished mural. The client will be shown ideas, photos, and sketches to determine the exact design and wishes for their mural/s.

Any pre-painting to cover existing paint or murals on the wall and/or wall patching and any wall preparation will be charged extra. The customer is encouraged to hire professional painting services to prep the walls to save costs.

The proposal/contract will be sent to the client via e-mail and will explain in detail the price and proposed timeline of the mural. The proposal will include a non-refundable design/sketch fee, material cost and artist fees, and cost for assistant/s if needed.

When accepted the proposal will become the contract. Our non-refundable design/sketch fee is \$ 2,000.00 and is due upon signing. The customer will receive 3 sketches and the fee includes up to 2 sets of changes by the client. Additional sketches are charged \$ 200/sketch. If the client decides that after the sketches have been presented to not engage us for the mural work they can do so and the contract is terminated. Sometimes the wishes of a client can not be accomplished on the wall and we accept that. Any unforeseen and additional charges will be discussed with the client and are not part of the mural contract.

We require 50% of the total amount two weeks before the scheduled start date. This allows us to block our calendar for the time of the project and to purchase necessary materials before the painting and book our assistant/s if needed. The balance is due on the last day of the painting.
