WHAT IT IS

THE LIVE ART PAINTING PERFORMANCE

Live Art Painting Performances are a visual presentation and art form through which the artist creates a unique masterpiece live in front of an audience. These artworks are customized to the event theme, customer, or client branding.

The unique clue about a KISSING.ART Live Art Performance is that the canvas the artist paints on during the event is made of many smaller canvases. These canvases can range from 4 to 200 pieces- depending on the number of guests.

Watching the artist paint in person is a captivating experience, and having a talented artist working at an event will make it truly memorable. During the event, guests can interact with the artist and see the painting created from start to finish.

After the finished artwork has been revealed to the audience the large canvas will be disassembled and each guest can take home their piece of art. The small canvases are signed by the artist, wrapped, and boxed up with client branding thus making it a perfect, unique, and custom event gift.

Live Art Painting Performance brings an added dimension of creativity in a wide range of scenarios including product launches, parties, corporate functions, openings, weddings, conferences, presentations, fundraisers, and more.

Every event is unique and so are our Live Art Painting Performances. Get in touch with us if you are interested to learn more about what is possible for your next big event.

ART

HOW IT WORKS

CONSULTATION:

Before your event, our team will consult with you to discuss the special occasion and your overall vision. The theme, branding, colors, and painting style will be discussed. You will review prior work for inspiration on your piece and address any potential integrations to make it a one-of-a-kind experience for you and your guests. With your input, our team will build a canvas in our workshop that fits your needs and/or event space. The canvas can be made up of 4 to 200 smaller canvases depending on how many giveaways you would like to hand out to your guests.

SET-UP:

Our team will coordinate the appropriate time before your event for set up. We will bring all supplies and easels to set up in a designated location.

LIVE ART PAINTING:

Sara and her team will begin the creative process during the desired time at your event. Guests will have the opportunity to watch and engage with the artist as she transforms the canvas with a variety of colors and materials. Standard painting takes approximately 2-3 hours to complete, depending on the size of the canvas.

COMPLETED WORK:

When the painting has been completed the finished artwork will be available for final viewing, and we encourage you to take photos of the finished piece.

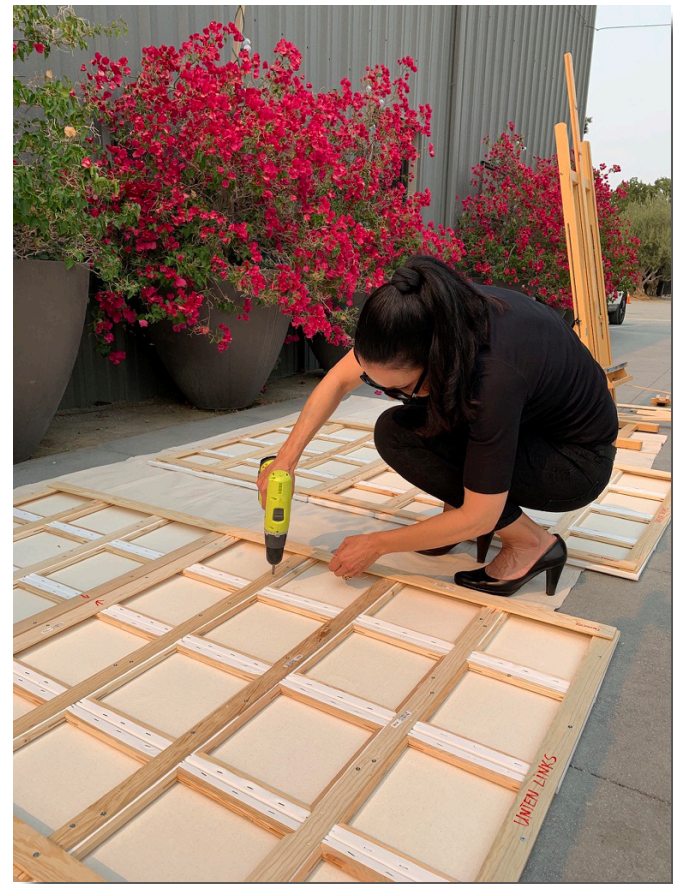

DISASSEMBLING:

After the finished artwork has been revealed to the audience and photos have been taken, our team will disassemble the artwork. Single canvases will be signed by the artist, wrapped, and placed in branded gift boxes, thus making it a perfect, unique, memorable, and custom present for your guests to take home.
